Age Range: 4 - 8 years

Grade Level: Preschool - 3

Customer Reviews

We used it when our kids were small and now with our grandkids. It's stood the test of time, and the new illustrations are great for kids to color and bring to the table. A winner.

I used this service with my own kids and now my grandson has his own copy. A classic that has stood the test of time. A perfect length and style for a child's first seder. A must!

This is just perfect for a big family (reform) pesach--no super long passages and keeps everyone interested long enough to get all the points across. As an added bonus, the kids color it and we try the recipes.

While the content was okay, the online description neglected to indicate that the pictures were all black and white which is not conducive to a beginer's book geared for children.

This is a very nice book (it reads like a standard English book, not "backwards" as a traditional Haggadah does), that is very child-appropriate. And while it is far from all-inclusive, it is a very nice supplement for a little kid who is just beginning to participate and be interested in the Passover Seder. The pictures and word-layout are excellent for a beginning reader. Also works as a coloring book, since the pictures are not colored in.

Terrific for young children. Great illustrations and opportunity for child to color many drawings.

My 4 year old granddaughter loves this. She wrote her name on it and has it with her books. She can now tell the story by herself and loves asking the questions. This is a wonderful book for young children to learn their heritage.

I wanted the school aged children in our family to be better able to follow the meaning of Haggadah. The book is illustrated nicely and easy to understand. However my 6 year old grand daughter made the comment "The pages turn the wrong way." She knows that we read from the back to front of the book.
