This exam was way way harder than sharepoint 2010 exams. Wayyyy harder. For this exam they 'whoever they are' have made sure that you know your stuff. I started studying for this exam thinking, it would be simple because I already had my 2010 cert so how hard could it be. Besides I've already had quite a bit to do with SP 2013 so no big deal. That is not the case. After I went through a CBT

Nuggets 70-331 video series 'which is good by the way' and a pluralsight 70-331 series, 'also good', I thought yep I am ready.but I am NOT Ready! There is a heap of questions there that will blow your mind unless you do some serious serious study.I brought this book a couple of months ago because I was planning on doing this exam, but I did not ready it. Now a couple of days in before my exam I am reading it furiosuly ('arrrg last minute cramming'). But you can be assured that this book has all the detailed stuff in it that you need.This book is really comprehensive, which you just cant get from the video series because they simply cannot cover in detail all the stuff.Point is, you will need this book, you will realize that this book is covering in detail the things that will be in the exam, and which you WILL have to know to pass.If you are doing any of the new SP 2013 exams, make sure you get this book for the 70-331. Especially if you make the mistake of not completing the MCSA ' the 3 Windows 2012 exams ' that are kinda pre-requisites before attempting 70-331 and 70-332.
