Customer Reviews

The title of this book says everything. "You are mine" are the three words that kick off the whole plot. The characters move through the dialogue a bit too quickly for my taste, but the thoughts get across to the reader all the same. And while this story is very "shoujo-romance" cliché, it's still quite entertaining. The artwork is a bit flat at times, but overall decent.I think my only real complaint is that a blank page does happen every other page. It's kind of annoying, but not intolerable. If you want something for a bit of light reading and you don't mind clicking the page button twice, then give this

book a shot!

This story was so awesome, cute, romantic! love this story by the way this story is rated pg14 just in case well you know! I'm glad I read this this. I can't describe this experience I had reading this book

I guess it's not my type of manga but I was disappointed with the random story line this had. I was expecting the story to be a lot more detailed and filled with deeper emotion. The very title of "You're Mine" just drew me in. But I guess it's just not my type of manga.

Very hard to follow because it was so poorly translated, several of the pictures were completely indistinguishable, there were too many distracting minor characters, the characters and plot lines were under-developed, and the only thing the two main characters shared was making curry together (yet it was only mentioned afterwards by the minor characters, not even shown) and an unsatisfyingly brief sick visit. In short, this was a waste of this month's prime membership book!!!

I don't understand how this book got so many good reviews!! The art appears to be rough sketches instead of finished art work. The story line is underdeveloped and moves too quickly. I can hardly understand the story because the translations are done poorly and the story line is poorly developed. Thank goodness I only paid \$2 for this.

This Book is cool . The way you read it is kinda confusing but once you start to get into it the comic gets easier to read :) . This book is a 5 star book because it's romantic, protective and dramatic . So if you love those type of topics then you should so read this book then !

it's a very good manga. I love the romance. great book!!! Excited to read the next book. it's funny when she breaks up with her boyfriend. And the next day a different guy tells her you are mine.

Though somewhat confusing, it is definitely cute and has that lovey-dovey charm, so it succeeds at what it set out to do I think. Translation could use a little work. Worth the two bucks, looking forward to reading the next ones.
