Customer Reviews

I read a lot of fantasy series. I really like this series as a whole. I'm still getting used to the idea of novellas that must be read to keep pace with the series. All that being said this book was a lot of fun to read and it was great to get more in depth into Becca. This is a great addition to the series.

Another great Copernicus novella! Becca must solve the riddles to get another relic. But what about the physical problems with Becca? Will her bloody noses get worse or better? Lots of questions need to be answered in the upcoming book!

Just enough mystery and excitement to keep you glued to the book. Tony Abbott is great!

Love this, even tho it is a child's book, waiting for the series to be complete.
