MARCELO IN THE REAL WORLD is quite simply one of the most beautiful and moving stories that I have ever read. By author Francisco X. Stork, this lovely, thoughtful book tells the very special story of Marcelo, a seventeen year-old boy with a high-functioning autism spectrum disorder. Told from Marcelo's point of view, the reader is transported into a very unique way of thinking, bringing Marcelo's world alive with amazing clarity and detail. In MARCELO IN THE REAL WORLD, Marcelo Sandoval has always experienced music in his head that no one else can hear, and he has always attended a school where his unique differences and abilities have been nurtured and protected. But the summer before his senior year, his father requires Marcelo to work in his law firm's mailroom, so

that Marcelo can begin to understand and experience "the real world," and, perhaps, attend the mainstream high school for his final year. At the law firm, Marcelo develops friendships with Jasmine and Wendell. But are they real friendships? Only time will tell. As the summer unfolds, Marcelo learns about many new emotions and ways of life, from competition, jealousy, anger, and desire, to patience, control, wisdom, and strength. When he finds a disturbing photo in a box of documents to be destroyed - a picture of a girl with horrific injuries - Marcelo finally, truly connects with the real world, and begins to understand his place in it. Marcelo learns about pain, suffering, and injustice in the world, as well as what he can do to fight it. This story is told in the first person by Marcelo, and it his most unusual way of thinking and speaking that completely draws the reader in.

Reason for Reading: I have Aspergers and have wanted to read this book since I first heard of it. Summary: Seventeen year old Marcelo has Aspergers (high functioning form of autism) though he doesn't like to label himself that way but when asked does say that the closest diagnosis for his condition would be Aspergers. He's lived a very happy life, going to an upscale private school for kids with learning or psychological difficulties. Here he is allowed to be himself, follow his interest and gently learn how to communicate with the "normals". Aspies have obsessions and Marcello's special interests (as he prefers to call them) are first and foremost God. His family is Catholic, he prays the rosary and memorizes scripture but he also reads theology from all sorts of perspectives and meets regularly with a Rabbi friend of his mother's for hour long sessions on discussing God. His other interest is Halflinger ponies which are raised at his school and used as therapy for autistic and other hard to reach children. He looks after them and has planned once again to work there this summer vacation but Marcelo's father has a different plan for him this time. His father refuses to believe that Marcelo has any sort of condition that (now that he's a man) getting out in the "real world" will not help him overcome and he has arranged for Marcello to work in his law firm's mail room for the summer with the stipulation that if he does well he can decide whether he wants to go back to his special school for his last year of high school or to public school but if he fails to meet all tasks assigned to him he will have to go to public school for his last year. Thus his father hopes a dose of "real world" will cure his son. Comments: I loved this book!
