Customer Reviews

I bought my daughter 3 books from the series and will have to order the others soon! She is 15 months old & asks for "hockey!" They are great books for her to read with her dad who is a goalie. We laugh at some of the shapes like "hexagon- Art Ross Trophy" and my husband and I argue whether a leaf, a crown & a lightning bolt should be included as they're not really geometric shapes. But we love the series and so does our daughter. They are fun to read, good quality, & a great way to introduce her to basic hockey items.

I love this series of books, i have 5 so far and my 18 month old loves them. The pictures are great and being a hockey family we just love the idea of each of these books. I will let all my friends know about these books.

I bought this for my grandbaby so that he could learn shapes and learn to love hockey too. Hope he likes it and that his football loving parents let him use it. It seemed like a sturdy, kid friendly book.

My brother and his wife are about to have their first baby and not only are they hockey fans, but they love to read so I thought this (and all the others in this collection) would be a wonderful addition to their reading time with baby. I looked through them all and love the pictures and text. The board books are very sturdy and I think they'll hold up to lots of drooling, chewing and slamming (I have 3 boys so I know how rough they can be with books). :)

I got all 6 of these books for my sons 2nd Birthday, & he loves them all!!! He looks at them everyday & recites all the Team Logo's he sees. If you are raising a hockey nut, like I am, get these books!!!

my 2 year old daughter loves these books. her dad plays hockey so she loves love loves it and everything that is hockey themed. books are med size and good condition not cheap looking.

Well, my boys still can't read, but I personally enjoy these books. Great way to introduce your kids to hockey, with simple things they can related to like shapes.
