# Graham's Biblical Concordance

Synopsis

This is a topical concordance for the Bible. It enumerates the character of each topic from Genesis to Revelation, without repeating ideas. The FIRST time that something is revealed about a topic, it is recorded. Each verse in a given section is required to reveal the full character of that section. Everything that the Bible says about the given topic is recorded within the section, without repeats. I am happy to accept suggestions for what I missed, or if I included duplicates. Note: I have not specified a version of the Bible that ought to be read, and I have not done a "wordy-study" based on any certain version. This was manually done by reading through the whole Bible, not by searching for keywords. Be blessed!

Customer Reviews

This invaluable tool is a great addition for anybody who seeks to understand, live, and proclaim The Word of God. Each topic contains enough scriptures to educate and equip you with The Living Word regarding that topic. Reading a complete section with a desire and humility to know The Bible and you will find yourself qualified to not only live by the Word, but share with others as well. I give this

my highest recommendation to anybody with a hungry heart to know God.

This resource is amazing. If you ever think "what does the bible say about [insert topic here]," then this resource is the best place to start. The author has gone through the bible and organized scriptures under topic headings without repeating ideas. This means that just by reading through the list of scriptures under each topical heading you will have a really solid foundation for further study of the topic. I highly recommend it!
