Customer Reviews

My 17 month old received her first little learners puppet book for her first birthday and she absolutely loves them. I could not find anymore until I found them here on . And can't complain about the price.

Patterned after The Itsy Bitsy Spider finger puppet book (our grandbaby's favorite), this one does not disappoint. It is sturdy and chewable, with vivid and appealing illustration, and follows the song/story line. It is well-made and has just enough movement activity to stimulate a baby and hold its attention.

This is perfect for little ones. There are only about 6 or six pages, but are made of thick cardboard so easily turned by the child. The head of the animal is a finger puppet that is accessed from the back of the book and it goes thru each page of the book to the front via a hole in each book. It is a precious way to keep their attention and teach them the nursery rhymes at the same time. My

grandson LOVES this books.

My 17 month old just loves this book. She's a huge fan of animals and it just makes her giggle.

as expected, short cardboard pages and puppet hold up to aggressive baby.

These little puppet books are a great entertainer.
