## Customer Reviews

In general I am not too fond of poetry, be it adult or children's poetry. I ordered this book along with several others by Jack Prelutsky for my 4 grandsons ranging in age from 2 to 7. As I usually do, I read every one of them before they do. Since I am not as eloquent as the author I cannot find the appropriate words as to how to describe how special these books are. Every child and adult with a sense of humor should pick up at least one of Mr. Prelutsky's books and read it. The books are not only amusing but with very few exception are written in everyday language. Unlike the books of Dr. Seuss (which in his own right deserves recognition as an excellent writer of children's books), there are no griches or other nonsensical works and yet the way this author has written his books will make anyone from 2 to 102 smile or laugh out loud. Even though they are written for kids, as an adult I found them to be more than special. He is an excellent author who does things with words

that will not only entertain you and any child that is lucky enough to own his books, but after reading them I would not be surprised if this introduction to poetry will result in kids at any age being anxious to read more of Mr. Prelutsky's books. This author is exceptional when it comes to putting into verse life as kids see it and live it. They will be transfixed by how well he is able to use descriptive easy to understand vocabulary. His expertise in making the verses flow and rhyme so perfectly is a literary experience all children of any age should be exposed to. Any adult reading these books to a young child will not be bored and will actually look forward to verbal interaction that will be fulfilling for both the child and the adult. Some of his books are written for children that are reading on their own.
