Beautiful, beautiful! This book tells a wonderfully old story in a totally new way. Using a conversation between God and his bedraggled servant Job, the message of creation was never clearer. The incredible photography of Steve Terrill keeps me looking at every page long after I've read the text a dozen times. Ever wonder how to get your family, friends, and visitors to engage in spiritual conversations? Wonder no more. Leave a copy of this book out where people can see it and you'll be talking about big things in short order. Better yet, buy copies for your "hit list", your office reception area, your church library and watch the magic happen.

All of this book is amazing, but I was especially struck by the pages illustrating God's words to Job regarding the lions, horses and other animals. I'm used to seeing and recognizing the wonder of God in gorgeous landscapes, beaches and skies. But, this book uniquely refreshed in me the awesomeness of God and His power over ALL creation. The photos so perfectly deliver to the eyes the words of God to Job. It is an inspiring book that beautifully glorifies His marvelous power.

Best anxiety treatment out there! Stunning photography along with several of the most powerful

chapters in the Bible that remind us of God's power, control, and providence. Highly recommend for your coffee table and as a gift book.

When ever I need to remember how awesome my God is, I re-read this book. The photography is amazing and it is put to just the correct scriptures. I ordered these books for graduates who are entering a hard world and I want them to have this book. To see they need to rely on the power and wonder of God.

I picked up this book recently at a friend's house. I usually am not into those "inspirational books" (i.e. Max Lucado, etc.) or "Christian" art per say (i.e. Kinkade). But this was really something else. The photos are incredible and definitely "worshipful" in the sense that you look at it and realize that GOD has truly made a beautiful world for us, and we need to praise him for it each day. However, with that said, there are some criticisms. First, don't think that every quote in this book is from the Bible or even Christian authors. He does add some secular writers' quotes, whom you have to be discerning about. Also some statements are BIG overstatements. So be discerning when you read it. One can definitely enjoy this as a part of your quiet time, or as a gift to someone you know loves nature (or maybe is hard to shop for!)

One of the best books ever of explaining the book of Job and also God. As in "Where you there Dude, when I made the stars"...Not real words but so many funny one liners in there. Beautiful pictures as well. I would love another as gave that one as a gift.
