## Synopsis

Written by comics legend Matt Wagner and illustrated by acclaimed artists Guy Davis, John Watkiss and R.G. Taylor, this first volume of the complete SANDMAN MYSTERY THEATRE collects issues #1-12 of the classic Vertigo series and features an insightful introduction by author and pop culture historian Dave Marsh. The year is 1938, and the world is holding its breathâ€”mesmerized by the onrushing storm that will soon engulf it in fire and steel. In New York City, one manâ€™s sleep is filled with tormenting visions of the evils that mankind visits upon itself, compelling him to act. And so, by night, Wesley Dodds lays aside the trappings of his inherited wealth to roam the shadows as the Sandman, armed with a tranquilizing gas gun and driven by an unrelenting sense of justice. Haunted and obsessed, the Sandman moves through a decadent, post-Depression landscape, stalking the predators who hide themselves beneath societyâ€™s callous indifference to the weak and vulnerable. No one sees him at his work until he chooses to reveal himselfâ€”no one, that is, except the woman who is destined to be the light to his darkness.

## Customer Reviews

While Neil Gaiman's Sandman shall be always rembered as "The Sandman" this 23 year old series was also excellent. It started in 1993 and ran 70 issues. The last two years have never even been collected. While I was kind of hoping for a series of Deluxe Hard Covers like Fables or Y The Last Man, I am happy enough that it is being repackaged in these 12 issue Omnibus Trade Paperback Editions. This collects the first three trade paperbacks and is 328 pages. It has an introduction by Dave Marsh and a couple of extras in the back including Trading Card images done for the 1994

Vertigo Trading Cards. For those worried about such things the cover displayed by was not the final cover version. I will attempt to post a photo on my copy. This series is loosely based on the Golden Age series which ran from 1941 to 1946. This series actually ran six years, a year longer than the original Golden Age series. Unlike the light hearted Golden Age stories which were light and fast paced fun, these stories are very dark and very adult featuring torture, murder, rape, nudity, mutilation, incest and other very mature subjects. The stories are written by Mage and Grendel creator Matt Wagner. The stories run four issues each with a new artist on each of the three storylines collected here. The art is from Guy Davis, John Watkins and TG Taylor. While the fine line art of Guy Davis is my favorite they all share a realistic style which is very anti-superhero. Davis style is very intricate while the other two have a broader "Alex Toth" like style. While Wesley Dodds is secretly the pulp hero The Sandman who wears a gas mask and carries a gas gun, equally billing should go to his partner Dian Belmont, daughter of the District Attorney.

First off, this isn't directly related to Neil Gaiman's Classic Sandman. This is about Wesley Dodds, the original Golden Age Sandman. We don't get an origin story for this series at the beginning, but for now we do not need one. What matters is the mystery and intrigue surrounding Wesley Dodds and how he and Dian interact while he explores the criminal underworld. We do get hints as to what happened to make him become the Sandman, his travels in "The Orient", but that's all we get for now. Hints. And I like this. I also like how well the 1930s are portrayed. This is Depression Era New York at its darkest. Bigotry, violence, poverty, it's all here and it's perfect for the story this series is telling. Wesley is a great leading character. He's not portrayed as handsome or fit. He's a young man with thinning hair combed back, glasses, and a seemingly scholarly attitude, a great contrast to his alter ego as the Sandman. Dian Belmont herself is a great character and a perfect foil for Wesley. I like their interactions and the build up of their relationship. They don't start out as boyfriend and girlfriend of course. They grow and develop as characters and this is perfect for the series. The cases shown in this series are very Noir with very disturbing twists and turns with despicable people that the Sandman goes against. While it's not bad, the tone can be a bit... overwhelming. Especially with one instance in the Third Arc that will leave you very uncomfortable and for some it may be a deal breaker. I will not say what it is, but when you see it, you will know. Still, the tone doesn't feel jarring. It fits the book and what it has set out to do. Now for the art. The art switches from arc to arc. And for the most part, it works for each story and the tone of the overall series.
