Wedding Feast Of The Lamb

Synopsis

This text places the Eucharist in the universal context of world religions and shows how the Eucharist is God's response to the universal human quest for the perfect sacrifice of expiation, thanksgiving, and communion. It not only discusses the explicit Eucharistic texts of the New Testament but also shows the role and meaning of the Eucharist within each Gospel, within the theology of Paul, the Letter to the Hebrews, and the Book of Revelation. It cites forgotten texts and recovers surprising insights from the Fathers that disclose the link between the Eucharist and mystical experience, the presence of all the mysteries of Christ (in particular his death, resurrection, and his coming in glory) in the Eucharistic celebration. The systematic part is developed in dialogue with Protestant concerns regarding the Eucharistic presence of Christ and the Eucharist as sacrifice. It also shows the importance of the Greek Fathers' doctrine on the ontological transformation of the Eucharistic elements for transcending the impasse of the contemporary debate on transignification. This book is an essential resource for the study of the Eucharist in STL, STD, and MDiv courses and libraries. It is also recommended for pastors, deacons, and professors. Published by Liturgy Training Publications.

Customer Reviews

One of the first things a Catholic learns is that the Eucharist is 'source and summit of the Christian faith'. Thanks to this book, I am beginning to understand why the Church says this so emphatically. This is not an easy book. It is written by a scholar, and for scholars, of high calibre (our

Holy Father, Benedict XVI, won the same award for theological scholarship as the author of this book. Nevertheless, I am grateful for the insights I have been able to glean about the awesome majesty of the Mass.

I emphatically recommend this book for anyone who wants to know more about the theology behind the Eucharist. This book takes a systematic study through the Old Testament and the New Testament as its basis. Therefore, as a scriptural approach to the theology of the Eucharist, it is invaluable. The author approaches Eucharist from the authentic Catholic perspective and therefore one should not expect to read comments about what others may call "Eucharist" but which really is not that which is presented in Scripture.

This product arrived in a timely fashion for my course. I also enjoyed the quality of the product itself. Everything arrived in pristine condition, and most importantly, without any crimping or crinkles.

Best book on the Eucharist I have ever read. Kereszty knows his stuff, presents it very well and writes accessibly. You will not be disappointed.
