## Customer Reviews

Very poor images- very poor. The only saving grace is they give a url to print out copies. The url sites are not the authors

Pages are printed out from free material from the internet. You can see the large pixels in some photos. I was hoping for something a little bit higher quality in terms of the actual ink / print.

The quality of this book is horrible, they literally googled pages and printed out and put together as a book. The pictures are unclear and resolution is horrible.
