This is an age appropriate series that is user friendly for both teacher and student. Many of my students are EAL and need a vocabulary boost. The vocabulary introduced is balanced, so it is accessible to a variety of linguistic levels amongst my students.

Vocabulary the key to elevated educational success. This book was great as I work with children ready to take their ISEE, ACT, SAT or high school testing. Thank you for making this resource available. Valuable, motivating!

Really helped my daughter out with learning a little bit more for school, expanded her ability to process more things while giving her the freedom to mess up with the stress of having a bad grade to deal with.

These workbooks are how we keep our kiddo's brain exercised during summer months. They are great for self-paced and self-managed learning. SUGGESTION: If you use this for alone quiet time, don't be surprised if they return a completed chapter in less than 5 minutes -- unless you rip out the answer key and hide it before handing them the book. True story.

Good book for a kid in middle school to expand his vocabulary or just at least get exposed to different words. My son has learned the meaning of many words he did not know before and I made him learn the spelling of some of them. I like this book.

I love the self-checking aspect of this book and it has a great selection of words. My son likes using this book. He's in 7th grade, about to start 8th. He has used this for the whole 2nd half of the school year.

I really like this book for the content, page appearance, and the clever game to find the answer to a question posed at the beginning of each section. My daughter enjoyed working in the previous book in the series and I think she (and I) will enjoy this one too.

This is a great supplement for my 11 year old. His vocabulary is growing at a steady pace and he knows how to use and spell the words. That's all I ask for! I will be ordering for other family members.
