Customer Reviews

This very high quality board book was a gift to my 18 month old, we adore it! The gift set has the cardboard people from P&P, the illustration is AMAZING! So creative & true to the story. We ordered the *Sense & Sensibility* book, and *Alice in Wonderland*. If you love classic literature & are looking for a beautiful way to share it with your little one, you're going to love the Baby Lit books!

Paper dolls for very little girls just don't get any cuter! I love that my daughter is absorbing a classic novel in board book form. What a great way to introduce her to the wonderful world of literature. I love this set.

This set is well made, and since the board book is included, I think it makes a sweet gift! The

cardboard pieces are sturdy and bring the book to life. My 5 year old loves it. There are matching cardboard stands to set every piece upright. They are not too small for little hands, but definitely for a child above toddler age. Adults would enjoy making scenes with these, perhaps on a book shelf! The only disappointment is that only two of the sisters are included! I mean, what is the Pride and Prejudice set without all FIVE of the Bennett Sisters? I think this would add greatly to the set. Other than that, we have no complaints. I think much play can be had from the pieces that are included. This was a prop for my baby shower, as I am working on baby girl #5 (so appropriate!). All in all, we are satisfied. The book was signed by all the guests, and reading it to baby will remind me of all the love that was showered on us.

Just had to own it as it is adorable. Great book for preschoolers (even if they don't know who Jane Austen is!) but better for serious Jane Austen addicts. It has cute paper dolls (made of chip board), background and accessories. Nice job, Jennifer Adams.

This is a great series of books for babies. The artwork is creative and engrossing for my nephew, while his parents appreciate the inspiration taken from their favorite novels. It's a winner for everyone!

This is the absolute most adorable set! Includes the book and several thick board punch outs for them to play with. It is a quality item, even the box is thick and substantial.
