Things I See At Baptism

Synopsis

The newest title in the Church Book series helps the very young child connect the sights and sounds of Holy Baptism to his life as a baptized and redeemed child of God. There is one word on a page (such as "water" or "cross"). The facing page shows an illustration of that word and a statement that explains it. Each book in the series uses simplistic text and illustrations to stimulate young children's listening and identification skills. This book helps parents and early childhood educators teach children to identify and understand what happens during the Sacrament and to see Jesus at the center of the experience. The books in the Church Book series are designed to assist parents and teachers as they help young children, identify and understand what happens in church and see Jesus at the center of the worship experience, understand the significance of the worship experience, feel a part of the worshipping community, build a foundation for regular worship. Each book is sturdy enough to withstand wear and tear from active toddlers.

Grade Level: Preschool and up

Customer Reviews

This is a basic board book showing the things you would see in church at a baptism. It doesn't go into great detail but provides basic information to allow you to start a conversation about baptism with a young child. It allows you to explain your beliefs to your child at a level that he/she is ready to understand. We looked at this book with our 2-year-old before his cousin's baptism, and also gave a copy to our infant goddaughter at her baptism.

We received a full set of this author's books when our daughter was born. Now, at 18 months old, she loves picking one of these books to read at bedtime with us. These books are simple to read, beautifully illustrated and have a great Christ-centered message.

Cute book as a baptism present. I didn't want to give an infant a bible with thin paper pages since they wouldn't be able to use it for quite some time but a sturdy board book is a great way to let them explore their faith without destroying a book! The book itself is simple, but open ended allowing a parent to begin a conversation about faith and let the child ask questions as they get older.

This book is a great book for little ones. Also the book came from the distributor in even better shape than was expected.
